

## Mirror Warranty

Dear Client,

Brick Glass warrants its mirrors against silvering defects, such as discoloration, black spots, or clouding of the silver film, that materially obstruct the mirror's reflective quality within the vision area for a period of one (1) year. This warranty is subject to all terms and conditions established by the manufacturer.

Markings that may appear on the glass under hot or steamed conditions are excluded from this warranty. Such markings are considered a normal result of the manufacturing process and do not compromise the mirror's safety or structural integrity. Visual quality control checks are conducted only in dry, room-temperature environments.

In the event that the product fails under the specified warranty conditions within the one (1) year period, Brick Glass will provide a replacement mirror. All glass is inspected prior to pickup, and the company guarantees that the goods supplied will be fit for the buyer's stated purpose. Products are sourced from reputable manufacturers and fabricated according to industry standards.

Brick Glass reserves the exclusive right to inspect any mirrors subject to warranty claims and will determine, at its sole discretion, whether conditions exist that void the warranty.

The warranty will be void if the mirror product is:

- Broken, whether spontaneously or through usage.
- Mishandled, or if there is evidence of tampering.
- Improperly installed.
- Exposed to foreign materials or solutions, including but not limited to:
  1. Cleaning products containing ammonia
  2. Painted walls or other surfaces that may react with the mirror backing.

This warranty is limited to the terms described herein and does not extend beyond the stated provisions. It is provided exclusively to the immediate customer and is non-transferable. To receive any warranty resolution or service, proof of original purchase must be presented to Brick Glass.

With much respect,

**Christopher J. Kinsella**  
General Manager of Brick Glass
