

## Brick Glass Protector Lifetime Warranty

Dear Client,

Brick Glass Protector-treated shower doors are guaranteed to remain more water-repellent than untreated glass throughout the lifetime of the glass, provided that the manufacturer's care recommendations are followed and no abrasive cleaners are used. BGP forms a chemical bond with the glass, creating a patented protective coating that, when properly applied, is guaranteed not to haze, chip, crack, peel, or discolor for the glass's lifetime. In the event of a covered product failure, BGP's liability is limited to the replacement cost of BGP chemical materials for retreatment and does not extend to any indirect, incidental, or consequential damages related to this product.

This warranty replaces all other warranties of any kind, including any implied warranties of merchantability and fitness for a particular purpose. The company will not be liable for any indirect, special, or consequential damages resulting from the use of this product. Please note that some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you as the original purchaser. This limited warranty provides the original purchaser with specific legal rights, and you may also have other rights that vary from state to state. The company will be the sole judge of whether the manufacturer's maintenance recommendations have been followed. If, in the company's judgment, product failure is due to improper care or failure to follow these recommendations, the company will be released from any obligation or liability under this limited warranty.

With much respect,

**Christopher J. Kinsella**  
General Manager of Brick Glass
